This is a free template by Martin Stone of Martin's Mayhem. This template will create an envelope that when complete measures 4 x 3 inches. An example of how this template can be used can be viewed by [clicking here](#).

Please feel free to share any of your projects made using this template on any social media platforms using the hashtag - #MartinsMayhem.

You will require a piece of card stock or chosen material that measures 6.25 x 6 inches. From left to right, you will need to score at 1.75 inches and 4.75 inches. Rotate your card to 90°. Score at 2 inches and again at 5 inches. Cut away the excess card stock along the top and bottom of your card stock. The area you need to cut away is greyed out in the template above.
